Unlock Document Intelligence at Enterprise Scale

Powered by Infosys Topaz AI Next

Infosys Topaz AI Next's Intelligent Document Processing (IDP) is a fit-for-purpose* document intelligence built on a unified AI platform.

Going beyond data extraction, it orchestrates the complete document lifecycle from ingestion and understanding to validation, decision-making, and actionable insights, helping enterprises transform complex documents into trusted business outcomes.

Real Results. Real Scale.

130+ Variations Handled
Across enterprise-scale document workflows

>95% Accuracy
In document extraction & classification

200+ Financial Analyses per Month
Spanning 20-30 financial categories

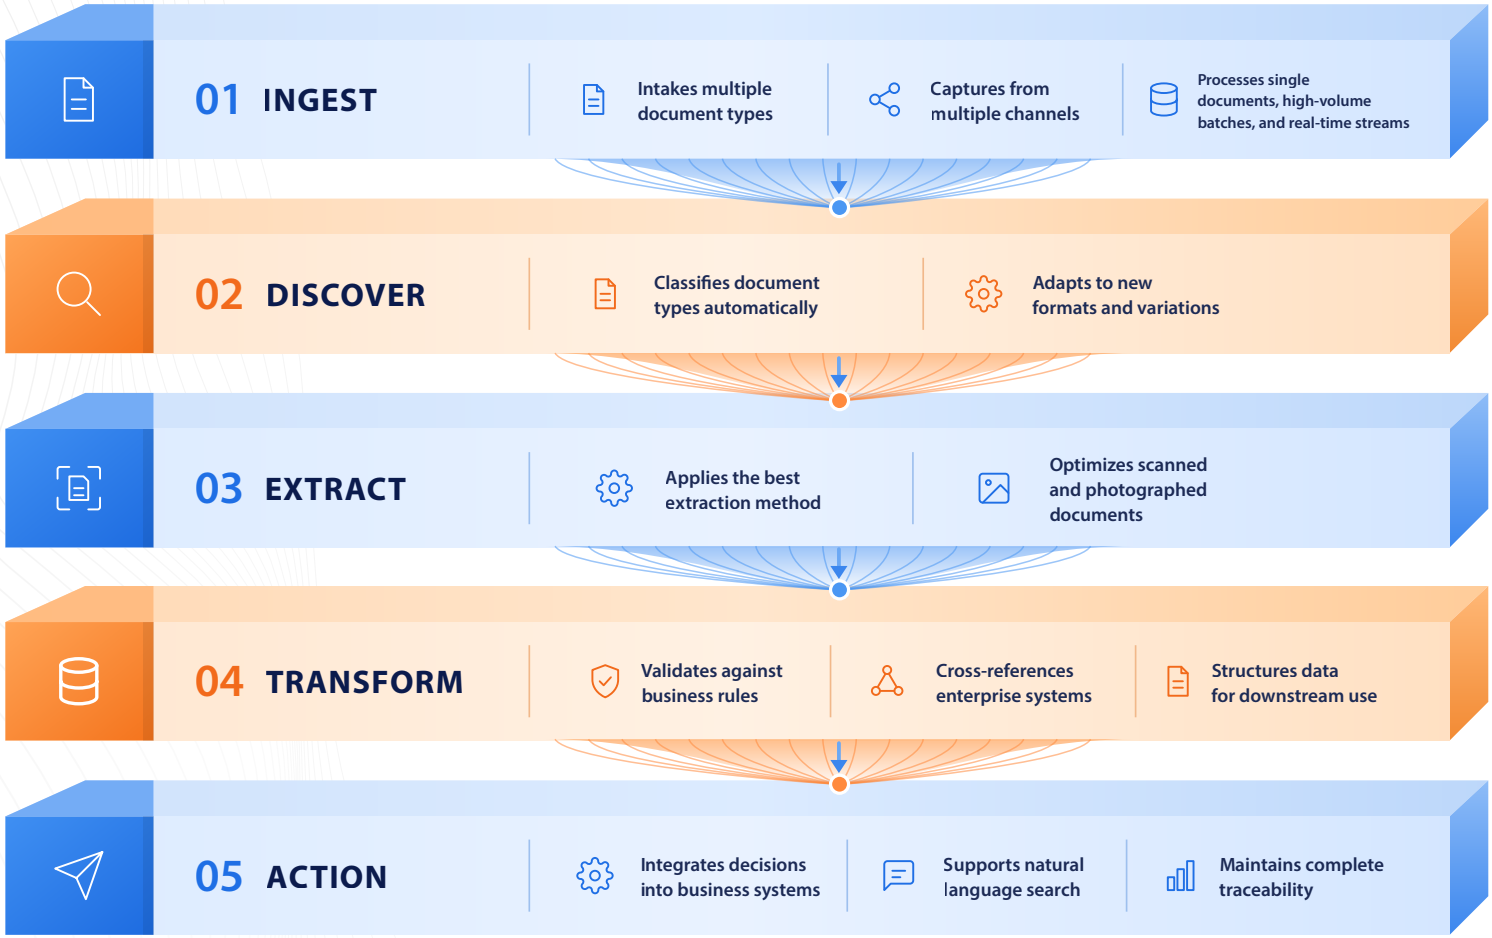

Businesss Impact

- **Faster Time-to-value**
- **Higher STP, Better Decisions**
- **Improved Productivity**

**Fit-for-purpose in this context refers to applying the most appropriate processing methodology based on document complexity, domain knowledge requirements, decision-making needs, and the business context associated with each document.*

End-to-End Document Intelligence

Orchestrating every stage of document processing from intake to action.

Enterprise-Ready by Design

APPLIES ACROSS EVERY STAGE

Complex & Unstructured Data
Processes documents, emails, images, and more.

Agentic Execution
Transforms document insights into actions.

Robust Evaluations
Validated against real-world business outcomes.

Governed
Policy-driven, transparent, and auditable.

The Infosys Topaz AI Next IDP Advantage

Fit-for-Purpose Document Intelligence	Choose the right extraction approach for every document. AI Next offers a broad range of document intelligence capabilities*, enabling enterprises to align processing with document complexity, business needs, and cost goals.
Poly AI Approach & Partner Ecosystem	Choose from a broad partner ecosystem with the flexibility to select the best models, tools, and technologies at every layer through AI Next's Poly AI approach.
Value-Driven Cost Management	Optimize cost for value through continuous observability, monitoring, and performance management.
Trust, Security & Compliance by Design	Ensure trust across the document lifecycle through built-in governance, explainability, auditability, and human controls.
Unified Orchestration	Unify documents, AI agents, people, workflows, and systems in a single flow that turns information into action.

Capabilities include: OCR, layout-aware extraction, vision AI, intent and entity extraction, complex table processing, RAG-powered extraction, prompt-based extraction, agentic document processing (200+ ready-to-use agents and templates enabling automated, scalable document processing), etc.*

Infosys topaz AI Next

Customer Success Stories

Infosys Topaz AI Next IDP streamlined complex guideline reviews through AI-driven automation, accelerating account onboarding by over **50%** while improving compliance precision by **95%.**

By automating document-intensive processes, Infosys Topaz AI Next IDP helped a global bank reduce turnaround time by **35%** and average handling time from **115 to 80 minutes.**

Designed for Diverse Industries

- Banking & Financial Services
- Retail, CPG
- Healthcare
- Telecom
- Manufacturing
- Insurance
- Services, Utilities, Energy
- Logistics

From documents to decisions: Unlock the full value of your enterprise documents.
